  - ⋆ *Supervisors:* **Dr. Ritwik Banerjee, Dr. Indrakshi Ray, Dr. Nikhil Krishnaswamy**
  - ◇ **Machine Translation for Similar Low-Resource Language Pairs with Loan Words**
    Studied the potential benefits of using loan words, both as a knowledge base and as insights to architecture design, for automated machine translation between similar language pairs.

◇ **An Investigation into the Contribution of VLAD to Figurative Language Identification**
Investigated the application and effectiveness of vector of locally aggregated descriptors on top of Transformer layers. Studied sarcasm detection in Twitter as a use case.

◇ **Deepfake Text Detection for Social Media Bot Identification**
Implemented Transformer-based models to detect bot-generated text on a deepfake dataset resulting in performance improvements by using domain-specific pre-trained models.
